## PROFESSIONAL SUMMARY

- I am a software engineer who has been involved for more than 3 years. A professional with expertise in AI Engineer & AI Development ,can be referred to as a Full-Stack Developer with ML & DL & NLP Specialization or a Multidisciplinary Software Engineer and Generative AI in different kind application

## EDUCATION

**JUNE 2022** Technology Bachelor's Dgree

**JUNE 2026** Licence's Degree :

Software Engineering & Information System at University of Science Gabes

## EXPERIENCE

I have extensive experience in AI engineering and development, designing and managing secure, efficient APIs using Flask, FastAPI, Node.js, and Django. I specialize in machine learning and deep learning, leveraging libraries such as TensorFlow and scikit-learn to develop predictive models and intelligent application features. Additionally, I have worked with retrieval-augmented generation (RAG) and large language models (LLMs) to enhance AI-driven applications. On the frontend, I use React to create seamless user experiences.

## CERTIFICATION

- Machine Learning (ML)
- Generative AI RAG
- LLM
- General IA Basics and NLP
- English

## SKILLS

- Python Java JS TyoeScript C C# C++ SQL PHP HTML CSS SQL XML
- Flask FastAPI Django React
- scikit-learn Langain TensorFlow PyTorch
- Jupyter Pycharm VSCode Git GitHub Postman
