PROFESSIONAL SUMMARY

Software Engineer & Information Systems Graduate seeking a Software Engineer position. Passionate about AI Engineering, with a strong interest in Generative AI, Machine Learning, and Data Science. Experienced in full-stack software development and committed to applying industry best practices through real-world projects. Multidisciplinary engineer with strong analytical, problem-solving, and software design skills, capable of developing scalable and intelligent solutions.

SKILLS

- Python , JS , SQL , PHP , C , C# , C++ , Flask , Django , FastAPI Scikit-learn , TensorFlow , PyTorch , Git , GitHub & Linux
- Motivation & Learning , Communication , Organization & Problem Solving

EXPERIENCE

Software Engineer Intern : kifahi

Jan 2026 - May 2026

Bi Bot | Data Analysis

Script Writer : HackClub

May 2025 - Dec 2025

Python programming | Git version control

Self-Driven Projects :

AI Chatbot : 7JUNEAI

Developed a full-stack chatbot web application using Flask and React. Implemented RESTful APIs, integrated a language model, and managed local environments.

Clustering : Web Scraping

Built a data pipeline using Scrapy for data collection and scikit-learn for clustering, preprocessing, and visualization.

Classification : Machine Learning

Implemented supervised learning models including preprocessing, feature engineering, training, evaluation, and comparison.

Deep Learning

Implemented core machine learning and deep learning algorithms with performance evaluation.

Retrieval-Augmented Generation

Developed a RAG system combining document retrieval with generative models to improve response accuracy.

EDUCATION

Licence Diploma | Software Engineering and Information Systems

University of Science Gabes

September 2023 - Juna 2026

LICENSES & CERTIFICATIONS

General AI Basics and NLP

AI and Applications

Apply AI : Analyze Customer Reviews from Cisco

Career Essentials in Generative AI by Microsoft and LinkedIn

AI Infrastructure and Operations Fundamentals from NVIDIA

Google IT Automation with Python

LANGUAGES

English : Advanced

French : Intermediate

Arabic : Native

Spanish : Elementary
